SUMMARY

Bootcamp graduate with experience in JavaScript, Ruby and React, and a background in project management and research.

TECHNICAL SKILLS

JavaScript; React; Sinatra, Ruby; Active Record; Rails; SQL; HTML; CSS; Git; Project Management; Quality Control

TECHNICAL PROJECTS

Dotify - [GitHub \(frontend\)](#) | [GitHub \(backend\)](#) | [Demo](#)

An application for listening to music, watching videos, and maintaining user playlists, built using Sinatra and React

- Built a REST API with **Ruby/Sinatra**, utilizing **Active Record** to allow for interactable and persistent music playlists.
- Created a Single Page Application frontend using **React**, used iframe to link songs with their associated videos

StudyRoom - [GitHub](#) | [Demo](#)

A message board created for classmates to collaborate on work, with a coffee ordering component; built using React

- Developed a Single Page Application paired with json-server to deliver a message board for cohort-mates
- Managed requests with **json-server** and implemented validations to allow only the addition of properly formatted data

Animalgram - [GitHub](#) | [Demo](#)

An informational application that provides a randomized feed of animal photos and associated facts

- Built with **JavaScript**, used a public API to provide random images on refresh and associated details when clicked
- Simulated multi-page experience using selective-render functions, satisfying project guidelines to use single route

EXPERIENCE

YRCI

HR Assistant (*new clearances required after previous contract)

Fairfax, VA (remote)

Sep. 2021* – Dec. 2021

- Verified qualifications of applicants to a variety of government positions, served as point of contact for applicants
- Created postings in USAJobs, held discussions with external hiring managers daily to relay status and address concerns

YRCI

Documentation / QC Analyst

Fairfax, VA

Aug. 2019 – April 2021*

- Supported Department of State by abstracting legal lease agreements for international properties
- Overhauled the previous QC process, making it more streamlined and effective while requiring fewer analysts

Africa Centre

Junior Project Manager

London, UK

June 2017 – Nov. 2017

- Organized a large-scale London festival; managed the schedules of approximately 50 event volunteers
- Collected and filed feedback after the event to identify points of improvement for future event teams

Columbia University - Office of Joseph Stiglitz

Economic Research Intern

New York, NY

April 2016 – Aug. 2016

- Supported Professor Stiglitz's research in income inequality by finding and analyzing relevant literature

EDUCATION

Flatiron School

Full Stack Web Development, Ruby on Rails and JavaScript

New York, NY (remote)

April 2022 (exp.)

George Mason University

B.S., Economics

Fairfax, VA

April 2017
